

## ■BX-V162 voltage protector

120V US grounding plug

## ■Features

- Over/under voltage protector: When the voltage exceeds the limit, it will automatically cut off the power to prevent the electrical appliances being damaged by the too low or too high voltage.
- Phosphor bronze: with the advantages of good electrical conductivity, corrosion resistance and wear resistance.
- Flame retardant material: Be able to reach the experimental standards of level test of UL94-5VA..

## ■Introduction

**BX-V162 is a hot-sold voltage protector with low power in the South America. It applies for TV, computer and etc. which rated power is less than 1200W.**

## ■Specification

- Working voltage: 120VAC/50HZ-60HZ
- Under voltage: 90V
- Over voltage: 140V
- Working current: 10A
- Power: 1200W
- Delay time: 3mins
- Temperature: -5°C~+55°C
- Weight: 63g
- Size: 45.2\*53.7\*70.2mm
- Material: Flame retardant PC
- Package:

## ■Warning

- ※The total power of connected electrical equipment shall not exceed the rated power.
- ※ Do not use this product in damp or not ventilated environment.
- ※ Non-professionals do not open, change, repair the product.
- ※ Poor connection of the front terminal or poor connection of the plug may cause a danger.
